

# Delta Dental Patient Direct<sup>®</sup>

## Giving you great savings on the health care you need from the names you trust.

The cost of health care keeps rising, making it more difficult for you to pay for the essential care you and your family need to stay healthy. However, because minor health care issues can lead to serious and more expensive problems if left untreated, it is best not to skip preventive care or delay necessary treatment due to cost. The good news is that Delta Dental Patient Direct can help make health care more affordable.

Delta Dental Patient Direct is an easy and inexpensive way for you and your family to save money on the health care products and services that you need, including discounts on dental, vision and hearing care, and prescription drugs.

In one year, if a member of your family gets the Delta Dental Patient Direct discount on:

one dental exam and filling

or

one pair of glasses

or

one hearing aid

or

one month of prescription drugs

the card pays for itself!
